

Case Study:
Sustainable design, fit-out & production for Kenneth Cole

-KENNETH COLE

Kenneth Cole stores that we have manufactured are a perfect case study in terms sustainable design. 100% Recycled Timber flooring and ceiling. Low VOC Coated Water Soluble paints. Rerolled Steel Fixtures. Recycled Accessorizing. Low power LED and reclaimed Lighting Fixtures.

All metal parts of these vintage units have been reclaimed from existing metal units and even reclaimed light fixtures. Reclaimed Plumbing pipes make good merchandise hangers to display the chic merchandise in the most appealing

Design + Fitouts + Fixtures

“This was our first brand-shop in the new design with focus on sustainability, Ensemble left no stone unturned in finding the right materials at the right price and delivered 10 brand stores for us across India”

Rohit Patra,
National Project Head,
Reliance Brands Limited
